Computer Programming

PROJECTS

iremates.dev
https://github.com/irematess/iremates.dev
https://iremates-dev.vercel.app/
I developed my personal portfolio using Vue.js and tailwind

10fastFingerApp
https://github.com/irematess/10fastFingerApp
https://10fast-finger-app.vercel.app/
I developed the interface of the project using tailwind and Vue.JS.
An application that you can test your typing speed that I developed using event listeners.

E-commerce-app
https://github.com/irematess/e-commerce-app
I developed the interface of the project using tailwind and Vue.JS.
I processed the data using Axios and the json-server package
I did the routing with the Vue Router package.

userListApp
https://github.com/irematess/userListApp
https://user-list-app-eta.vercel.app/
I developed the interface of the project using tailwind and Vue.JS.
Using Rest Api, i received data from external sources and showed this data to the user.
I learned how to use the Axios package and Vue Router. I took an avatar picture according to the username using Avatar Api.

movieApp
https://github.com/irematess/movie-app/tree/main/movie-app
https://movie-app-xhhv.vercel.app/
I developed the interface of the project using Vue.JS
Using Rest Api, i received data from external sources and showed this data to the user.
I processed the data using Axios. I did the routing with the Vue Router package
